### REGULAR MONTHLY MEETING-BOARD OF DIRECTORS TRAVERSE ELECTRIC COOPERATIVE, INC.

Tuesday, June 30, 2020 8:00 AM

The June monthly meeting of the Board of Directors of Traverse Electric Cooperative, Inc. was held at the Cooperative on Tuesday, June 30, 2020.

President Veflin called the meeting to order.

The Secretary reported the following directors present:

Alan Veflin

Terry Monson

Pat Homan

Michael Marks

Russ Armstrong

Doug Diekmann

Mark Pearson

Tom Frisch

Karen Kath

Absent was: None.

Staff members attending the meeting were Joel Janorschke and Karen Lupkes.

Marks made a motion to approve the agenda as presented. Kath seconded the motion and upon vote, motion carried unanimously.

The minutes from the May Board of Directors meeting and the bills for May were presented. Pearson made a motion to approve the minutes and the May bills. Diekmann seconded the motion and upon vote, motion carried unanimously.

The Basin and East River video reports were viewed by board members individually at home.

Homan reported on the East River Board Meeting:

- Basin and DGC were discussed.
- Basin's load from the oil fields is down, but coming back.
- East River sales are down 5.4% compared to last year.

#### Manager Janorschke presented the Manager's Report:

- Reviewed the format of our annual meeting on July 27 from 3:30-7:00 PM.
- Discussed Basin's DGC loss of \$5.6 million in May and a new 150MW solar project in Montana.
- Provided an East River update. Discussed green credits, the Keystone Pipeline, Tri-State G&T, and Great River Energy (Coal Creek Station).
- Reviewed the REED Fund program and new loans.
- Provided an NRECA update. Reviewed the \$3 trillion relief package. Refinancing RUS loans was not included.

- Provided an update on MREA and MN Legislation. MREA hired a person for communications. Governor Walz's peacetime emergency goes until July 13. MN recognizes June 10<sup>th</sup> as Freedom Day. The MN Dept. of Revenue sent a letter to co-ops regarding paying property taxes on security lights. The ECO Act will be heard at a special session. MREA will continue to push for the load control receiver issue.
- Provided an SDREA and SD legislative review. The Line Patrol Charity Ride is cancelled due to COVID-19. Governor Noem declared June 10<sup>th</sup> Day in South Dakota to recognize the end of slavery.
- Other matter of interest:
  - Discussion was held on an irrigation site that has had four VFD's burn up. Our engineer at STAR Energy installed a voltage recorder and found no issues. Our engineer will install a voltage recorder again on this service. The member is requesting Traverse Electric to reimburse him for the replacement VFDs, which are about \$7,000 each.
  - Janorschke also discussed that he met with a member who had questions on his electric bill and submeter, that his electrician, Tim Hoffman, discovered he had wired it wrong years ago and the submeter reported two times the number of kwhs it should have. Hoffman corrected it. Janorschke explained this to the member.
  - Janorschke reminded the board that the general manager's performance review is scheduled for July 28, 2020 at next month's board meeting.

Miranda Wendlandt from CliftonLarsonAllen joined the meeting via Zoom to present the annual audit report. Ms. Wendlandt reviewed the financial report, key ratios, and comparisons to other MN Co-ops and East River Co-ops. There were no findings and they issued a clean audit report. After all board questions were answered by Wendlandt, Homan made a motion to approve the audit report as presented. Armstrong seconded the motion and upon vote motion carried unanimously.

Lupkes presented the Office Manager's Report per written report:

- May31, 2020 Accounts Receivable balances were reviewed. One account in SD was
  disconnected in June and reconnected the same day with payment arrangements. Two
  accounts in SD that were disconnected in May are still disconnected with no contact from
  them.
- New members connected were reviewed.
- Our lobby remains closed. We plan to reopen in the next couple of weeks. To date, no employee has contracted COVID-19. With the implementation of a COVID-19 Response Plan, all visitors complete a self-health screening questionnaire, sanitize their hands, and wear a mask. A sneeze guard will be placed at the front desk.
- We will continue to work with past due members to make payment arrangements. About twelve members have called and reported that COVID-19 is affecting their ability to pay. We do not apply late penalty to overdue balances, and do not charge any fees. The expansion of energy assistance programs has helped quite a few households.

- Our annual audit went well. It was conducted remotely this year. The auditors commented that they felt it went very well.
- Reviewed the process for unclaimed capital credits. For SD members, unclaimed capital
  credits go to the State of SD. In MN, unclaimed credits can be donated to a charitable
  organization. Last year's MN unclaimed credits were donated to local MN fire
  departments that serve our area. This year, we plan to donate the unclaimed credits to
  area volunteer ambulance services in MN. The amount varies each year.
- Reviewed a few notes to the May balance sheet including the East River and Basin Electric retirement of capital credits, the loan for North Ottawa Dairy, and the Co-Bank loan that will be paid off in June.

Lupkes presented the financial report for May 2020. After a discussion on the monthly comparisons and financial status of the Cooperative, Monson made a motion to accept the report as given. Frisch seconded the motion, and upon vote motion carried unanimously.

Janorschke gave the Operations Report per Schwagel's written report.

- Crews have been working on pole changes.
- Projects were reviewed.
- Pole inspection is done, with 2,268 poles tested, 191 were rejected.
- Discussed the Hwy 75 ditch project.
- DOT trailer inspection is complete.
- Review of our safety program.
- Colden Herberg completed the new employee orientation.
- Three crew observations were done.
- North Ottawa Dairy started milking on May 15.
- The outage reports were reviewed.

Our director seat on the East River Board of Directors is up for renewal. It is a three-year term. Marks made a motion to nominate Pat Homan for the East River Board of Directors. Kath seconded the motion and upon vote motion carried unanimously.

East River is requesting a board member to serve on the East River Resolutions Committee. Diekmann made a motion for Russ Armstrong to serve on the Resolutions Committee. Pearson seconded the motion and upon vote motion carried unanimously.

East River's annual meeting will be held September 9 in Sioux Falls. Monson made a motion to make Marks our East River voting delegate and Veflin the alternate. Frisch seconded the motion and upon vote motion carried unanimously.

The MREA EIS/Annual Meeting attendance is capped at 200 people. Armstrong, Frisch, and Marks plan to attend.

Other business:

Next board meeting will be on Tuesday, July 28, 2020 beginning at 8 AM.

#### General Manager's Report

Joel Janorschke

July 28, 2020

#### A. Basin Electric Power Cooperative Update

- i. On July 22, 2020, Basin Electric Power Cooperative and a subsidiary of NextEra Energy Resources, LLC, have executed a 30-year power purchase agreement (PPA) with Northern Divide Wind Energy.
  - Northern Divide will add 200 MW of wind energy to Basin Electric's
    portfolio, which, includes approximately 1,360 MW of wind, more than
    20% of its current total generation capability. Additionally, 200 MW of
    wind was added when a South Dakota wind project came online in April
    2020. The project is in Burke County, ND in the service are of BurkeDivide Electric Cooperative.
- ii. On July 16th Basin filed their Rate Schedule A with FERC. Basin again would like members to file motions to intervene and supporting this docket. Filings are due by August 6, 2020.
- iii. Dakota Gasification Company (DGC), reported a loss of \$12.5 million for June compared to a budgeted Loss of \$9.3 million. DGC has a reported Year-To-Date (YTD) loss of \$47.9 million compared to a budgeted YTD margin of (\$4.9 million) through June.
- iv. Basin Electric reported a Consolidated Net margin of \$10.9 million for June compared to the budget amount of a \$2.2 million. Reported YTD margin of \$63.3 million compared to a budgeted margin of \$35.1 million through June.
- v. Tri-State Generation & Transmission (Member of Basin)
  - 1. A Colorado administrative law judge has recommended that regulators approve an exit fee methodology proposed by United Power that would set the cost for cooperatives to leave the service of Tri-State. The decision comes after a two-year fight involving United Power and LaPlata Electric Association in its bid to leave Tri-State's service and coal-heavy generating mix. The recommended methodology would set a charge of approximately \$235 million for United Power to leave Tri-State's service. Tri-State says that would leave more than \$1 billion in unjust costs split between remaining members in Colorado, Nebraska, New Mexico, and Wyoming.

#### B. East River Electric Update

- a. Great River Energy (GRE) Retires Coal Creek Station:
  - i. With GRE's announcement of Coal Creek Station located in Underwood, North Dakota, will be retired in 2022. The retirement directly affects the four Class D members of East River. East River staff will meet with the four Class D Members (Agralite, Meeker, Redwood and South Central) to discuss this issue on June 17, 2020. The default is that the Class D member will take the replacement power

supply from East River, however there is a clause in the contract that gives an out if the GRE contract is terminated prior to 2045. Currently they have agreed to jointly analyze the projected new load, rate, and associated costs to make sure we understand each other's position.

#### b. Outages

- i. June 4th through June 9th
  - 1. 81 Breaker Operations vs 33 Breaker Operations in 2019
  - 2. 37 outages > 5min vs 6 outages > 5min in 2019
  - 3. 12 Supply substations impacted
  - 4. 53 Distribution substations impacted
  - 5. 4 Wheeled load substations impacted
  - 6. 84 poles impacted
  - 7. 3 Substations required repairs
  - 8. Total line damage \$826,000

#### C. REED (Rural Electric Economic Development)

- a. On July 21, 2020, the REED Board reviewed and approved the loans for:
  - i. Town & Country Fire District, Woonsocket, SD; The approval of \$135,000 is for an addition to their existing fire hall that was built in 1979. Town & Country Fire District is in the service territory of Central Electric.
  - ii. Buffalo Ridge Resort, LLC, Gary, SD; The approval of \$226,000 is for the purchase of an existing restaurant and lodging and campground facility. Buffalo Ridge Resort is in the service territory of H-D Electric.

#### D. NRECA Update

- a. NRECA along with Co-ops continue to push congress to pass RUS debt relief in the next COVID-19 stimulus package.
- b. Infrastructure Bill Includes Wind & Solar Tax Extensions, and EV Charging
  - i. A multi-year extension of wind and solar tax credits is part of a newly introduced \$1.5 trillion infrastructure package in the U.S. House. The bill from House Democrats is called the Moving Forward Act and includes an extension of a variety of energy tax credits. The bill would extend wind tax credits for five years and solar tax credits for six years. It would also extend incentives for carbon capture technology and offshore wind projects. The House infrastructure bill includes \$1.4 billion over four years to boost charging and fueling networks for electric, natural gas, propane, and hydrogen vehicles. NRECA is advocating for an amendment that allows electric distribution utilities eligibility for the electric vehicle charging station grant program.
- c. FERC Reforms PURPA Rules and Regulations
  - i. On July 16th, The Federal Energy Regulatory Commission (FERC) voted to reform outdated rules and regulations implementing the Public Utility Regulatory Policies Act of 1978 (PURPA). PURPA was enacted more than 40 years ago during a national oil crisis to promote increased energy conservation, efficiency, and the growth of renewable energy. The 1978 law requires investor-owned electric companies, public power utilities, and electric cooperatives to purchase energy from qualifying facilities (QFs) at prices that often exceed the market.

#### E. Minnesota Update

#### a. MREA

- i. Rural Electric Safety Achievement Program (RESAP)
  - 1. Originally, we had planned on conducting an unannounced observation, but due to COVID-19 and the potential risks we have decided to schedule the observation for August 27, 2020.
  - RESAP, is a service of NRECA and strives to promote the highest standards of safety among electric cooperatives. The program is based on two fundamental guiding principles that are essential to achieving safety excellence:
    - a. Safety must be embraced as a core value where the actions and decisions of the cooperative reflect a fundamental and unwavering commitment to safety at all levels of the cooperative. This is achieved through a strong safety leadership culture. Cooperative leaders accept responsibility for a culture that ultimately drives safety performance.
    - b. Cooperative leaders and employees take ownership of the systems and processes that create a safe working environment. Safety systems are a shared responsibility and should focus on enhancing safe behaviors and reducing unsafe acts and risks to injury.

#### b. Legislation

- i. Gov. Walz had asked President Donald Trump on July 2 to declare a "major disaster" in a request to the Federal Emergency Management Agency. A current assessment of damage found more than \$500 million of damages related to the fires. Among the public structures destroyed was a Minneapolis police station that was a focus of the protests. The federal government declined his request for financial support from the Federal Emergency Management Agency (FEMA).
- ii. Governor Walz has extended the COVID-19 Peacetime emergency through August 12, 2020.
- iii. Governor Walz has issued an executive order requiring the use of face masks effective July 25, 2020.
- iv. SF 3962/HF 4249 (Load Control Receiver bill): Continue pushing the load control issue with the Governor's office and hope to make progress through administrative means. Sen. Rarick has agreed to sign onto a letter to the Governor urging him to take administrative action and we are trying to get other legislators to do the same.

#### F. SDREA Update

#### a. SDREA

i. Due to the growing concerns for co-op employees from across the state SDREA will not have a booth during the state fair which his held in Huron, SD from September 3-7th. They will not lose their location in the expo building.

#### b. Legislation

- i. Representative Steve McCleerey's
  - I will be attending fundraiser held at the Wind Winery, Rosholt on July 31st.
    Representative McCleery represents the Sisseton Area. Managers Tim
    McIntyre, Lake Region Electric and Dave Page, Whetstone may also be
    attending.

#### ii. SD VW Settlement

1. The draft plan would allow nonprofits, businesses, or government entities to apply for reimbursement up to 50 percent of the cost of a Level 2 or Level 3 fast charger station. The applicant does not have to choose the lowest bid, but the reimbursement will be based on the lowest bidder. The charging stations must be linked to the public 24/7 and must include exclusive parking spaces, signage, and other requirements. The state has access to \$8,125,000 through the settlement and has proposed setting aside 5% of the money, around \$406,000, for the EVCS program.

#### G. Other Matters of Interest

#### a. Bois de Sioux Watershed District (Drainage System)

- i. On 510th/US HWY75 (One-mile South of MN HWY 55) multiple poles tipped over on 7/9. This was due to the widening of the trench. Without notifying the cooperative the Watershed District secured additional R/W along 510th St. Last fall they dug the existing trench deeper and extended the width up to our poles. The existing R/W was at 33' ft from centerline where our pole was set at 44' ft from centerline. They have submitted a claim into their insurance carrier. Outage occurred at @ 12:38 am; Reconnected @ 2:02 pm.
- ii. Campbell Dairy
  - 1. Fed from the Doran Substation; unable to back feed from Wendell Sub.

#### b. Riverview Dairy - Potential New Site

i. Jim Nieland had contacted Dale regarding the installation of a temporary service for test wells for a potential site. The site would be in Dollymount Township and five miles South of their existing Dollymount Dairy site. The facility would be identical to the North Ottawa site which maintains 11,500 head.

#### c. Cooperative Current and Future Needs

- i. Currently three separate facilities
- ii. Parking/Storage
  - 1. No room for additional vehicles
  - 2. Chipper stored outside
- iii. Brick building
  - 1. Structural inspection
- iv. Pole Yard

- 1. Needs to be fenced in Estimated cost \$40,000
- 2. Will lose SQ footage due to fence
- 3. Maintain area North of pole pile (Cutting Brush)
  - a. Homeowner does want to see pole pile
  - b. Oder of pole treatment
- d. Solar Inquiry
  - i. Bob Kramer West of Herman
- e. Jerry Murphy
  - i. Jacob from STAR Energy and Steve installed a voltage recorder on July 8th and removed on July 21st. Member has been burning up VFD's in the spring when he turns on his service after it has sit idle over the winter.

JULY 22, 2020

New North Dakota wind project will soon provide affordable, renewable power to Basin Electric customers

#### FOR IMMEDIATE RELEASE

Bismarck, N.D. – A new wind project in North Dakota will provide another 200 megawatts (MW) of affordable, renewable power to Basin Electric customers.

Basin Electric Power Cooperative and a subsidiary of NextEra Energy Resources, LLC, have executed a 30-year power purchase agreement (PPA) for the entire output of the Northern Divide Wind Energy Project in Burke County, North Dakota. Northern Divide will add 200 MW of wind energy to Basin Electric's portfolio, which, includes approximately 1,360 MW of wind, more than 20% of its current total generation capability. Additionally, 200 MW of wind was added when a South Dakota wind project came online in April 2020.

"Renewable technology has advanced dramatically in recent years, which means even more affordable power for Basin Electric's customers," said Paul Sukut, CEO and general manager of Basin Electric. "Basin Electric is excited to purchase the output from the Northern Divide Wind Energy Project to help serve our growing energy needs."

The Northern Divide Wind Energy Project was approved by the North Dakota Public Service Commission in June and construction began in July. According to NextEra Energy Resources, the project will eliminate nearly 600,000 metric tons of carbon dioxide per year and produce enough electricity to power nearly 65,000 typical North Dakota households per year.

Unlike most electric utilities across the country, Basin Electric was experiencing significant growth across its service territory prior to COVID-19, and Basin Electric is meeting that growth largely with renewable resources. In the last decade alone, Basin Electric has seen 50% load growth increase, 80% of which was met with renewables, natural gas, and market purchases. After the economy recovers from the COVID-19 impacts, Basin Electric staff believes that its membership will continue to have significant growth.

"Our commitment to wind dates back nearly 20 years with the construction and commissioning of our first wind project. Since then, we have constructed a number of wind projects of our own, including the largest wind project in the nation that is solely owned and operated by a cooperative, and have secured power purchase agreements for a large amount of power. In fact, we have more than doubled our wind capability in just the past five years and expect it to continue growing in the coming years," Sukut said.

"We are very pleased to work with Basin Electric to produce cost-effective, home-grown, renewable energy for its customers," said John Di Donato, vice president of development and origination for NextEra Energy Resources. "The Northern Divide wind project will also create significant economic benefits to Burke County and the entire region, including good jobs, landowner payments, and millions of dollars in additional tax revenue for the community."

"Burke-Divide Electric Cooperative is proud to have the Northem Divide wind project become a part of the cooperative," said Jerry King, Burke-Divide Electric Cooperative general manager. "It will bring additional renewable energy to Basin Electric's already diverse energy portfolio, as well as employ many local folks in our service territory, which will help the communities they choose to live in – from housing, to schooling, to overall economic development."

Basin Electric Class A member Upper Missouri Power Cooperative, headquartered in Sidney, Montana, provides wholesale power to Burke-Divide Electric and 10 other distribution cooperatives in western North Dakota and eastern Montana. "It is encouraging to witness the development of cost-competitive energy like the Northern Divide Wind Energy Project, which will be part of the energy mix we purchase from Basin Electric for our member systems, said Claire Vigesaa, Upper Missouri Power's general manager. "The energy needs in our region are growing and this project will help us serve both our members, and our communities as a whole."

The Northern Divide project will bring significant economic benefits to Burke County. According to NextEra Energy Resources, the project is expected to contribute \$30 million in property taxes to the local community over its first 30 years of operations, as well as \$30 million in landowner payments. The company estimates the project will also create approximately 200-300 construction jobs and five to seven full-time jobs once it is completed.

Northern Divide is anticipated to begin operation by the end of 2020.

#### **About Basin Electric Power Cooperative**

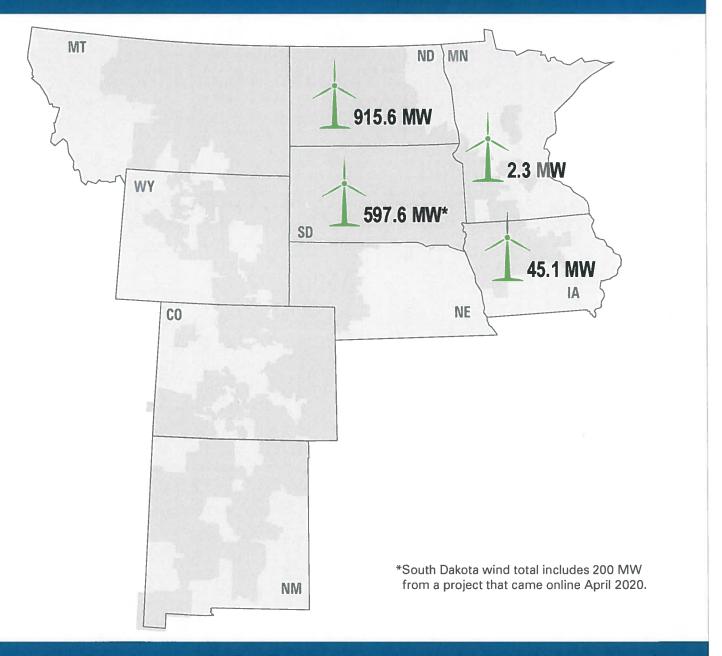

Basin Electric is a consumer-owned, regional cooperative headquartered in Bismarck, North Dakota. It generates and transmits electricity to 140 member rural electric systems in nine states: Colorado, Iowa, Minnesota, Montana, Nebraska, New Mexico, North Dakota, South Dakota, and Wyoming. These member systems distribute electricity to about 3 million consumers. Learn more at <a href="https://www.basinelectric.com">www.basinelectric.com</a>.

#### Sidebar Project at a glance:

According to NextEra Energy Resources, the Northern Divide Wind Energy Project is estimated to:

- Eliminate nearly 600,000 metric tons of carbon dioxide per year
- Produce enough electricity to power nearly 65,000 typical North Dakota households per year
- Contribute \$30 million in property taxes to the local community over its first 30 years of operations
- Contribute \$30 million in landowner payments
- Create approximately 200-300 jobs during construction
- Create five to seven full-time jobs upon completion

## **Basin Electric Wind Resources**

These numbers include resources owned by Basin Electric and purchase power agreements with other power companies.

#### July 28, 2020 board meeting Office Manager's Report:

#### 1. Accounts Receivable balances as of:

- a) Current (June 30th statement) \$869,061.59
- b) 1-30 Days (May 31st statement) \$16,019.20
- c) 31-60 Days (April 30<sup>th</sup> statement) \$4,870.05
- d) 61-90 Days (March 31st statement) \$896.24
- e) Older than 91 days \$11,654.03
- f) 54 disconnect notices were issued for July resulting in 1 disconnect in SD on July 14 (reconnected same day with payment arrangements. No reconnection fee charged.) One account in SD remain disconnected from May with no contact from them.

#### 2. New Members Connected:

- a) Tri-County Co-op Oil Assoc. Inc.
- b) Stephen or Kelli Powers
- c) Gina Frye
- d) Lisa Kuipers
- e) Pembina Cochin LLC
- f) Becky Temple
- g) Steve Kunkel

#### 3. Office response to COVID-19.

- a) We opened our lobby on June 22. Visitors are instructed to not enter the building if they have the symptoms of COVID-19 posted on the door. Upon entering, hand sanitizer and disposable masks are available at the front counter. Sneeze guards are also in place at the counter. Surfaces frequently touched by visitors are disinfected regularly during the day.
- b) With MN Governor Walz's executive order effective July 25, face masks are required to be worn in public when 6 ft. social distancing is not an option. We have updated our COVID-19 Preparedness Plan to reflect this change.

#### 4. Past due accounts affected by COVID-19

- a) Tribal members in SD are able to get additional assistance with paying their utility bills. Each qualifying member may be eligible to receive \$500-\$1000 from COVID-19 funds the tribe recently received. These payments are starting to come in.
- 5. MN unclaimed capital credits totaled \$4,633.72 this year. They were donated to area MN 6 volunteer ambulance services. A letter explaining the donation will be sent along with the checks.

- 6. The Wheaton Dumont Elevator will make its final payment for the Graceville Elevator site construction charges on the 07/31/2020 billing statement. The construction charges were included as an addition to their \$76.00 monthly facility charge (\$1803.00 per month). Beginning with the 08/31/2020 billing statement their monthly facility charge will be \$76.00 per month.
- 7. The new billing statement design was scheduled to be introduced with our August 31 statements. It is postponed until the October 31 statements now. Dairyland is moving into a new building that isn't large enough to house the new printing equipment needed for the new statements. Due to COVID their building project start date was delayed, but has no delays since they began construction.

#### Dale Schwagel

July 22, 2020

#### A. As of July 22, 2020, crews have been busy with the following:

- Pole changeouts
- several new services, that did not require line extension
- Service upgrades
- Outages. We have been dealing with these on a regular basis lately.
- Terminating new underground and retire overhead for the ditch project along HWY
   75. We had Integrity Contracting do the install of the Underground. Hoping to get this project wrapped up by the end of the week, barring outages.

#### B. Miscellaneous:

#### STORMS

- I sent a crew of 4 with 2 trucks and pkup, to Lake Region (Pelican Rapids) on the 9<sup>th</sup> to help with storm restoration, with plans to send them back on the 10<sup>th</sup>. We were hit with a storm at around 11:30 pm on the 9<sup>th</sup> and had our own issues to take care of. The main issue with this storm, was the 3 phase poles that tipped over, due to ditching too close. This caused an extensive outage for the Campbell Dairy. PHOTOS ATTACHED
- The storm on the 17<sup>th</sup>, hit around 11:00 pm, we had multiple poles down in SD, and a lot of trees through lines throughout the system. The crews put in some long hours, but were able to get everyone on by Saturday evening. We had to bring in a contractor with a bomb unit, to replace a and straighten some poles in a slough in SD on Monday morning, they ended up swamping this unit as well and had to be winched out. PHOTO ATTACHED

#### • CARRS TREE SERVICE:

 Has 3 crews working on the MN side of Lake Traverse, and will be in the area for a while yet.

#### • UNDERGROUND CABINET INSPECTIONS

 STAR ENERGY started inspections of pad mounted transformers, and junction boxes on the 1<sup>st</sup> of July and will inspect approximately 300 units.

#### PYXIS OUTAGE MANAGEMENT:

 Launched the new mobile OMS to the IPADS, crews can now see meters that are off, and when they come back on. This is a great tool when dealing with the wide spread outages that we just experienced, the crews are also able to see where the other trucks are at.

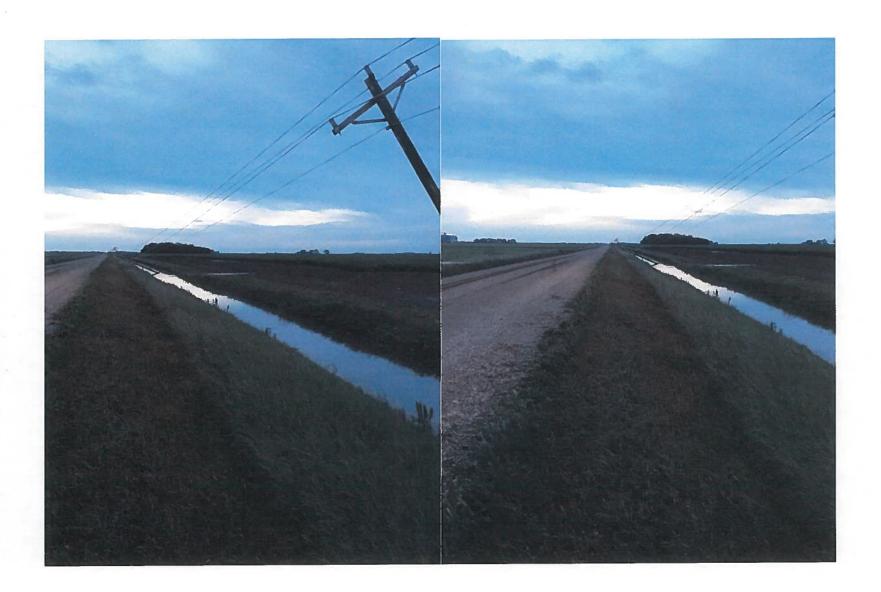

#### C. SAFETY:

- MREA:
  - Conducted a safety meeting on the 7<sup>th</sup>, with the main topic being,
     Distributed Generation Safety.
  - o Conducted 2 crew observations after the meeting.
  - o Safety Playbooks
  - o Safety pallet
- STAR:
  - o Be Safe topics
  - o Safety News Letter
- FEDERATED:
  - o Litigation Report
  - o S.A.F.E. talk
